

Beckett

Stone and Dark Ash

This item is exclusive to Bixy, the North American network of independently owned baby stores. MDBC has worked with independent retailers since 1990 and is proud to support Bixy and the shop local movement.

The Beckett Collection bridges the gap between traditional and modern design. With its unique two-tone back panel and matching footboard, as well as conversion to a low-profile full-size bed, the Beckett 4-in-1 crib is the perfect transitional piece for the modern home. Matching dresser and nightstand feature simple feet and contemporary 45 degree trimming for a clean storage solution fit for any setting.
